GREAT BATTLE RAGING

COLOMBIAN TROOPS AND INSURGENTS HAVING A FIERCE ENGAGEMENT.

FIGHTING SINCE TUESDAY

Best Battalions of the Revolutionists Made a Desperate Attack on Thursday. But the Government Forces Repulsed Them With Terrible Slaughter—Rebel Losses Placed at Over Two Hundred Men.

Panama, Aug. 2.—The peace commissioners who left here July 29 on the British steamer Cana to visit the revolutionary General Herrera near Agua Dulce returned to Panama at noon Friday. They informed the representative of the Associated Press that they were unable to fulfill their mission because a very severe engagement between Herrera's forces and the government troops has been in progress since Tuesday, July 29, when the revolutionary forces began to attack Agua Dulce.

At 5 o'clock Thursday morning the best battalions of the revolutionary forces attacked the government entrenchments with fierce courage. The slaughter of the revolutionists is said to have been excessive and barbarous. That same afternoon the white flag was raised in their camp and they asked for an armistice during which they could bury their dead. This was granted. The losses of the rebels up to Wednesday, July 30, were reported at over two hundred, while the government forces had had eight men killed and eleven wounded.

General Moreno, one of the peace commissioners who returned, says the entrenchments at Agua Dulce are masterpieces of military art. At the expiration of the time of armistice the engagement recommenced with the same fierceness. Nine government battalions which had not taken part in the fight were still being held in reserve.

General Salazar, governor of Panama, has received a letter from the governor general, Morales Berti, saying he is very enthusiastic as to the outcome and that he hopes to win a battle which will decide the fate of the isthmus. General Salazar, in his turn, is doing everything in his power to help General Berti. At 3 o'clock p. m. he dispatched further supplies of provisions and ammunition for Berti's army at Agua Dulce.

IN EXCELLENT SPIRITS.

King Edward Daily Increases His Walking Exercise.

London, Aug. 2.—King Edward daily increases his walking exercise, upon which his physicians no longer place any restraint. There is now no doubt that his majesty will be strong enough to undergo the coronation ceremonies Aug. 9, but in order to guard against contingencies a special movable chair is being prepared for his majesty's use should it be found necessary. The king is expected to remain on board the royal yacht at Cowes until the latest possible moment on Friday, the 1st, if this is possible, but there is a strong probability of his coming to London Thursday. His majesty is in excellent spirits and greatly enjoyed his seven-hour cruise to Brighton and back during the day. He read the newspapers and walked about the deck of the yacht while Queen Alexandra took photographic snap shots of the yachting scenes.

DREYFUS ADMITTED HIS GUILT.

French Paper Prints a Letter From the Minister of War.

Paris, Aug. 2.—Former Captain Dreyfus a few days ago wrote a letter which was published in the Radical, replying to a statement made by the Marquis de Gallifet, the former minister of war, to Joseph Reinach, to the effect that Dreyfus was in the pay of Russia. Dreyfus described this statement as an abominable lie. The Journal des Debats prints a letter from the Marquis de Gallifet, saying: "Captain Dreyfus is declining to revive his affair, but I desire to follow him. He admitted his guilt when he signed a petition for partition."

HIS HEAD ON EXHIBITION.

Chinese Insurrection Leader Captured and Beheaded.

Peking, Aug. 2.—Shing Ting Ping, the leader of the recent insurrection in the southern part of Chili province, who was erroneously reported to have been killed in an engagement with government troops last May, has been captured in Honan province and executed.

His head has been exhibited at the scenes of his exploits as a warning.

TO SEEK MAGNETIC POLE.

Amundsen, Norwegian Explorer, Preparing to Go North.

Copenhagen, Aug. 2.—Amundsen, the Norwegian explorer, has chartered the little schooner Gjora for an expedition next year to investigate further the magnetic pole discovered in 1831 by Sir John Ross, which is believed to have changed its position.

STIRING SPEECH OF EMPIRE.

Colonial Secretary Chamberlain Delivers an Address in London.

London, Aug. 2.—Colonial Secretary Chamberlain made a stirring speech of empire when he and Lord Kitchener were guests at a banquet given by the Grocers company. After paying tributes to Lord Milner, British high commissioner in South Africa, and to Lord Kitchener, Secretary Chamberlain dilated upon the new conception of imperial destiny in which, thanks to the South African war, he said ideas of kinship and mutual obligation had been substituted for mere pride of possession or huckstering calculation about profit and loss. The speaker said he foresaw in the reorganization of the newly acquired South African territories something that would make the mighty empire more than mere geographical expression. "We hope," said he, "to make it a living entity in which each part shall contribute to the success and security of the whole."

Referring to the conference of colonial premiers, the colonial secretary said the end actuating all parties to this conference could only be reached through imperial defence or imperial trade. He did not suppose this ideal would be attained all at once, but he said he believed the conference would lead to a considerable advance and, if this were so, he would be content for the present.

Mr. Chamberlain then paid a glowing tribute to the colonies, although he said he thought that opinion on imperial subjects was now broader at home than in the colonies themselves.

HEAD ALMOST SEVERED.

Five-Year-Old Boy Caught in an Elevator at St. Paul.

St. Paul, Minn., Aug. 2.—Howard Ryan, the five-year-old son of Mrs. Anna L. Ryan, met instant death in one of the elevators of the New York Life building by having his head and neck crushed between the floor of the elevator and a huge horizontal steel beam, which projected from the second story floor of the building. The head was almost completely severed. The accident occurred at 4:20 p. m., and the elevator was ascending at a rapid rate of speed, well filled with people.

While there were several people in the elevator, no one seems to know just how the boy met with the accident. It is thought, however, that the boy was crowded to the extreme front of the elevator, and that he was leaning forward, and possibly looking down the shaft.

On the second floor, connected with the glass skylight, is a huge steel beam, about a foot wide, which extends directly in front of the elevator. A screen which incloses the elevator shaft extends from the rear of the iron beam, leaving the whole side exposed directly in the path of the elevator. It clears the elevator by from one to three inches, thus the boy, who was standing to the extreme front and leaning forward, could be caught.

GREATLY EXAGGERATED.

Earthquakes Did Little Damage at Los Alamos, Cal.

Los Alamos, Cal., Aug. 2.—The reports telegraphed from this place and other sections of Santa Barbara and San Luis Obispo counties telling of the enormous damage done here by a series of earthquakes, have been grossly exaggerated.

It is an undeniable fact that there has been an unprecedented number of earthquakes, some more or less severe, but as to the reports of great fissures in the earth, upheavals of the earth and similar stories of the havoc wrought, it is only charitable to say that they are untrue.

Within the limits of Los Alamos, the property damage will not exceed \$4,000.

Several slight shocks were experienced during the morning, but no damage was done beyond further dismaying the inhabitants of this little town.

ACCEPTS THE INVITATION.

General Jacob H. Smith Will Attend a Reunion at Council Bluffs, Ia.

Council Bluffs, Ia., Aug. 2.—Congressman Walter R. Smith has received a telegram from General Jacob H. Smith, who has arrived in San Francisco from the Philippines, accepting an invitation to attend the third annual reunion of the National Society of the Army of the Philippines and stating that he would arrive here Aug. 13, the first day of the reunion. Preparations are being made to give the general a magnificent ovation, the report of the reception committee in charge of the encampment indicating that General Smith's standing with the members of the society has not been injured by his recent courtmartial.

Lind Will Run for Congress.

Minneapolis, Aug. 2.—John Lind has returned home from a vacation trip into the country. While away he admitted to friends that he would make the run for congress in the fifth district this fall. It has been known all along that the governor intended to become a candidate, but this is the first personal confirmation of the report, and its accuracy cannot be doubted.

Des Moines to Be Launched Sept. 20.

Washington, Aug. 2.—The cruiser Des Moines will be launched at the Fore River yard, Quincy, Mass., Sept. 20. Her sponsor will be Miss Helen West, daughter of Harry West, a business man of Des Moines. Miss West was selected for this honor by the people of Des Moines.

RATHER BROAD PLATFORM

So Arranged That All Democrats,

Gold Democrats and Populists Can

Stand Upon It—Strong Planks

Against the Railway Merger, for

Higher Taxation and Emphatic Re-

submission of Prohibition.

Fargo, Aug. 2.—The Democrats of North Dakota have adopted a platform and named a ticket with which they confidently assert they will be able to make a good showing in the election this fall.

The platform is rather broad and so arranged that all Democrats, gold Democrats and former Populists can stand on it. In deference to the Democratic contingent which had not supported Bryan, no especial indorsement was made of the Kansas City platform. There was a demand for the election of senators by popular vote, the initiative and referendum, primary election law and several minor features.

The two issues were strong anti-railroad planks against the merger and for higher taxation and an emphatic resubmission plank. The latter was adopted after a protracted struggle, in which there were a number of torrid speeches on both sides, but the plank went through by more than two to one.

The majority of the delegates are well pleased with the platform, though radical ones deplore its weakness on national issues.

There is considerable strength in the nominee for governor, who was formerly United States marshal in this state and has always been a permanent Democrat. Considerable opposition developed to the nomination of Lovell for congress before the convention finally met, but it went through. He was charged with being a traitor to the party and having refused to support the ticket in the last two campaigns. It was claimed that he recently announced his possible conversion to Republicanism.

The rest of the ticket is regarded as unusually strong and its disposition over the state will be a favorable factor. There was no opposition to any nominee on the floor of the convention and the following ticket was unanimously nominated:

Congress, L. A. Ueland, Edgerly, and V. R. Lovell, Fargo; governor, J. E. Cronan, Fargo; lieutenant governor, M. McGinnis, Jamestown; secretary of state, John Quarum, Abercrombie; auditor, J. F. Morrison, Bottineau; treasurer, James McDonald, Grafton; attorney general, M. J. Barrett, Minot; superintendent of instruction, V. Stefanson, Grand Forks; commissioner of insurance, F. A. Wilson, Bathgate. John M. Cochran, of Grand Forks, nominee for judge of the supreme court, was indorsed.

OCCASIONAL LIGHT SHOCKS.

Earthquake Continue in Santa Barbara Vicinity.

Santa Barbara, Cal., Aug. 2.—Throughout the day occasional light earthquake shocks were felt in this valley.

The wagon road over what is known as the Los Alamos grade extending over the mountain into the valley is in bad condition. Boulders and dirt were thrown from higher elevation into the valley. Passengers arriving at Los Alamos from Lompoc report having had great difficulty in making

their ways over dangerous places.

Professor Larkin of Mount Lowe observatory has arrived at Los Alamos. Over the telephone he stated the disturbances are of a nature known as oscillatory earthquakes and are of a common character. He says it is quite probable they are due to the displaced displacement of immense beds of gases seven or eight miles beneath the surface of the earth.

While the country about Los Alamos gives evidence of once having been the scene of vast volcanic action, he observes nothing to indicate that another calamity of that nature is likely to occur.

LARGE ENDOWMENT FUND.

Young Men's Christian Association Has \$1,000,000 Pledged.

New York, Aug. 2.—The international committee of the Young Men's Christian association announced that it had been pledged the \$1,000,000 endowment fund for which it has been striving and for which the impulse had been given during the jubilee year by the promise of \$250,000 from one of its best friends. Of the amount pledged six persons gave \$632,000. Only 150 persons, besides association secretaries, were asked to subscribe, and of that number fifty-six contributed.

CIPHER CODE FOR ARMY.

New System Devised by Corbin's Private Secretary.

Washington, Aug. 2.—Walter H. Allensworth, private secretary to Adjutant General Corbin, has invented a new cipher code for the war department and army.

It is a great improvement over the old code, which was regarded as confusing and not invulnerable.

Aged Indian's Sentence Commuted.

Paris, Tex., Aug. 2.—The United States district attorney has been notified that the president has commuted to life imprisonment the death penalty of Solomon Hotema, the aged Indian who some years ago murdered several men, women and children in the Indian Territory because he believed them witches and responsible for deaths from spinal meningitis.

MARCHING TO THE CAPITAL.

Firminites Under General Juneau Reorganized.

Port au Prince, Aug. 2.—The Firminite army, commanded by General Juneau, which retreated to Archahale after its recent defeat, has been reorganized and is now marching to the capital. Deputies to the number of sixty-four, constituting a quorum, have assembled for the customary verification of the validity of the elections.

Ministers' Maids.

"Are you a minister's wife?" was a query encountered so frequently by a young matron in search of a maid that she scented a story.

"Why this maun to live under the droppings of the sanctuary?" inquired the matron or words to that effect.

Then it appeared that the minister's family is considered a most desirable place because of the opportunities for witness fees in wedding cases. There are few bridegrooms who come without a witness to be married who will not bestow a generous tip upon the girl who furnishes this small but necessary feature of the ceremony.—New York Tribune.

Would Give Him a Lesson.

A reporter who is the father of a year old youngster met his pastor on Sunday afternoon.

"Why weren't you at church this morning?" was the first question of the spiritual adviser.

"I couldn't come," was the answer. "I had to stop at home and mind the baby. Our nurse is ill."

"That's no excuse," said the pastor. "It isn't? Well, next Sunday I'll bring him to church with me and see how you like it."

There are few bridegrooms who come without a witness to be married who will not bestow a generous tip upon the girl who furnishes this small but necessary feature of the ceremony.—New York Tribune.

Would Give Him a Lesson.

A reporter who is the father of a year old youngster met his pastor on Sunday afternoon.

"Why weren't you at church this morning?" was the first question of the spiritual adviser.

"I couldn't come," was the answer. "I had to stop at home and mind the baby. Our nurse is ill."

"That's no excuse," said the pastor. "It isn't? Well, next Sunday I'll bring him to church with me and see how you like it."

The Black Duck region wants to be organized into a new county with 5,000 voters in sight.

MILWAUKEE is in luck. Chicago is threatened with a beer famine, and the distance is not great.

MORRISON county has produced nothing but democrats as yet for seekers of the local offices. So far six have filed their "intention."

THE Cass Lake Times howls "the country is rapidly going to perdition." In prosperous times it is always these calamity shriekers who see nothing but ruin ahead.

THE war in Todd and Wadena counties waxes warm. The advent of new republican papers to supplant the democratic ones has lighted the flame that is liable to end in a conflagration.

IN speaking of the change of so many newspapers from democratic to republican the St. Cloud Times remarks "If this thing keeps up who will speak for the common people?" The republican press of the country, of course. They have always done so and simply because the democrats are sick and tired will not change their policy in that respect.

The Primary Election Law.

Considerable interest centers in the new primary election law which will be tried for the first time in Minnesota on Sept. 16th and as the time is fast approaching the following synopsis is published for the benefit of those not well informed on the matter:

"Instead of placing in nomination candidates for the various county offices to be elected this fall, by the usual method of conventions, they will be nominated by what is known as the primary election, which this year will be held on Tuesday, Sept. 16, and conducted in the same manner as a general election. The primary election also takes the place of the first registration day.

"Only political parties having cast at least 10 per cent of the total vote at the previous election shall be eligible to a place on the ticket, unless a petition signed by at least 10 per cent of the qualified electors is filed with the county auditor asking for the right.

"At least twenty days before any primary election, a candidate for any office shall file with the county auditor an affidavit to the effect that it is his bona fide intention to run for the nomination for any specified office, and upon the payment of ten dollars to the county auditor, his name shall be placed upon the primary election ballot of his party. The last day for filing affidavits this year falls upon August 26, or possibly August 27.

"The ballots will be prepared by the county auditor and furnished to the different election precincts, the same as at a general election.

"The polls shall be kept open from six o'clock in the morning until nine o'clock in the evening for the purpose of voting and registration without any adjournment or intermission.

"All persons entitled to registration as voters in the election district shall be entitled to participate in the

primary election, but no voter shall receive a primary ballot or vote until he shall have first been duly registered as a voter then and there in the manner provided by law, upon which registration he shall be entitled forthwith, but not later, to receive a ballot of the political party with which he then declares (under oath if his right thereto is challenged) that he affiliated, and whose candidates he generally supported at the last general election, and with which party he proposes to affiliate with at the next election, provided that a first voter shall not be required to declare his past political affiliation. A judge of election shall instruct the voter that he is to vote for his choice of each office, using only the ballot of the party with which he affiliates and return the ballot folded with the initials of the judges uppermost.

"No names of voters shall be placed upon the register prior to the primary election day, nor shall any be placed thereon upon said day in any incorporated city except of those who shall appear in person before the board of registration.

"The primary election will be held at the same places and under the same regulations as the previous general election.

"When an elector has received his ballot he shall retire forthwith to an unoccupied booth, and mark his ballot the same as at a general election.

"The returns are made in the same manner as at a general election.

"The clerk of district court of the county, the county auditor, the chairman of the board of county commissioners and two justices of the peace of the same county constitute the canvassing board and will publicly canvass the returns and must complete the same by the evening of the third day following the election.

"Following the opinion of Attorney General Douglas, no blank spaces will be left on the ballot as at a general election, for the purpose of writing in the names of candidates, and only those whose names appear on the ballot can be voted for.

"Voters who change their party affiliation can not vote at the primary election. A voter is only entitled to the ballot of the party with which he affiliated at the previous election, and whose candidates he then generally supported. In case a vote is challenged, the voter will have to take an oath and swear to his party affiliation.

Brainerd vs. Fargo, Athletic Park Sunday. Game 3:30.

CICARS.

Try "La Florence," 10 cents. "A Peach," 5 cents. "Union" Hand made by Wm. Schlange, 308 4th ave. 46-es

For forty years Dr. Fowler's Extract of Wild Strawberry has been curing summer complaint, dysentery, diarrhoea, bloody flux, pain in the stomach, and it has never yet failed to do everything claimed for it.

ON THE DIAMOND.

Fargo will be here in the morning for a series of three games with the local team. Brainerd never had a stronger aggregation than it has at the present time. Earling Bothne arrived in the city today from Chicago and will be seen for the first time with the locals in the game tomorrow. The team has been otherwise strengthened up so that it will be very fast. Sullivan, who lead the Winnipeg team in batting in the Northern League is in the game, and Nehr, the star fielder of the Fargo team, is also included in the team. With the addition of these players the game should be an interesting one from start to finish. Fargo has a fine team and they will give the locals a good run for their money. There should be a large attendance tomorrow.

Not to be out done in the great contest for honors in the grand national game of base ball, the M. & I. employees in the city have formed a team of their own, and now they are going out to find foes to conquer. Of course they would like a game with the first team yof the cit, but not being able to arrange such a date, they prefer meeting H. P. Dunn's Long lake "Bloomer Girl Sluggers." The lineup of the M. & I. team is about as follows: Downey, 1b; Strachan, 2b; Cleaves, ss; Gemmell, 3b; McCarthy, c; Stont, rf; Heffner, lf; Thomas, cf; Weisenburger, p; George Nevers water carrier. J. Swan is on the extra list as pitcher.

The Holland Primrose.

There is a plant in Holland, known as the evening primrose, which grows to a height of five or six feet and bears a profusion of large yellow flowers so brilliant that they attract immediate attention, even at a great distance, but the chief peculiarity about the plant is the fact that the flowers, which open just before sunset, burst into bloom so suddenly that they give one the impression of some magical agency. A man who has seen this sudden blooming says it is just as if some one had touched the land with a wand and thus covered it all at once with a golden sheet.

The Man In the Moon.

Life, whether vegetable or animal as we know it, certainly cannot exist under lunar conditions, says the London Mail. The alternations of a long day of considerably over 300 hours' duration, with a night of similar length, accompanied by changes from excessive heat to its antipodes of cold, would alone render all earthly life impossible, but experience has taught even here the adaptability of life to most extreme conditions, and it may be believed that, after all, organic life may have found a congenial home in our "lamp of night."

Money Talks.

Stumbled on a Fact.

A minister went recently to preach in a chapel unfamiliar to him. "You must do your best to keep your voice up, sir," said the chapel keeper, "for our church is very unfortunate in its 'agnostic' effects." Whether he meant it or not, it was quite true.—Christian Life.

The Primary Election Law.

Considerable interest centers in the new primary election law which will be tried for the first time in Minnesota on Sept. 16th and as the time is fast approaching the following synopsis is published for the benefit of those not well informed on the matter:

"Instead of placing in nomination candidates for the various county offices to be elected this fall, by the usual method of conventions, they will be nominated by what is known as the primary election, which this year will be held on Tuesday, Sept. 16, and conducted in the same manner as a general election. The primary election also takes the place of the first registration day.

"Only political parties having cast at least 10 per cent of the total vote at the previous election shall be eligible to a place on the ticket, unless a petition signed by at least 10 per cent of the qualified electors is filed with the county auditor asking for the right.

"At least twenty days before any primary election, a candidate for any office shall file with the county auditor an affidavit to the effect that it is his bona fide intention to run for the nomination for any specified office, and upon the payment of ten dollars to the county auditor, his name shall be placed upon the primary election ballot of his party. The last day for filing affidavits this year falls upon August 26, or possibly August 27.

"The ballots will be prepared by the county auditor and furnished to the different election precincts, the same as at a general election.

"The polls shall be kept open from six o'clock in the morning until nine o'clock in the evening for the purpose of voting and registration without any adjournment or intermission.

"All persons entitled to registration as voters in the election district shall be entitled to participate in the

primary election, but no voter shall receive a primary ballot or vote until he shall have first been duly registered as a voter then and there in the manner provided by law, upon which registration he shall be entitled forthwith, but not later, to receive a ballot of the political party with which he then declares (under oath if his right thereto is challenged) that he affiliates, and whose candidates he generally supported at the last general election, and with which party he proposes to affiliate with at the next election, provided that a first voter shall not be required to declare his past political affiliation. "No names of voters shall be placed upon the register prior to the primary election day, nor shall any be placed thereon upon said day in any incorporated city except of those who shall appear in person before the board of registration.

"The primary election will be held at the same places and under the same regulations as the previous general election.

"When an elector has received his ballot he shall retire forthwith to an unoccupied booth, and mark his ballot the same as at a general election.

"The returns are made in the same manner as at a general election.

"The clerk of district court of the county, the county auditor, the chairman of the board of county commissioners and two justices of the peace of the same county constitute the canvassing board and will publicly canvass the returns and must complete the same by the evening of the third day following the election.

"Following the opinion of Attorney General Douglas, no blank spaces will be left on the ballot as at a general election, for the purpose of writing in the names of candidates, and only those whose names appear on the ballot can be voted for.

"Voters who change their party affiliation can not vote at the primary election. A voter is only entitled to the ballot of the party with which he affiliated at the previous election, and whose candidates he then generally supported. In case a vote is challenged, the voter will have to take an oath and swear to his party affiliation.

The Holland Primrose.

There is a plant in Holland, known as the evening primrose, which grows to a height of five or six feet and bears a profusion of large yellow flowers so brilliant that they attract immediate attention, even at a great distance, but the chief peculiarity about the plant is the fact that the flowers, which open just before sunset, burst into bloom so suddenly that they give one the impression of some magical agency. A man who has seen this sudden blooming says it is just as if some one had touched the land with a wand and thus covered it all at once with a golden sheet.

The Man in the Moon.

Life, whether vegetable or animal as we know it, certainly cannot exist under lunar conditions, says the London Mail. The alternations of a long day of considerably over 300 hours' duration, with a night of similar length, accompanied by changes from excessive heat to its antipodes of cold, would alone render all earthly life impossible, but experience has taught even here the adaptability of life to most extreme conditions, and it may be believed that, after all, organic life may have found a congenial home in our "lamp of night."

Money Talks.

Parvenu—I was raised as genteel as you was, an' I'll bet you a hundred on it. Come on now; money talks.

Kostique—If your money talked the way you do, you'd be bankrupt pretty soon.

"What do you mean?" "It would give itself away."—Philadelphia Record.

Stumbled on a Fact.

A minister went recently to preach in a chapel unfamiliar to him. "You must do your best to keep your voice up, sir," said the chapel keeper, "for our church is very unfortunate in its 'agnostic' effects." Whether he meant it or not, it was quite true.—Christian Life.

Minneapolis and Stillwater Firms
are Getting Most of the Logs
Being Transported.

The Minnesota & International is
unusually busy at the present time
hauling logs from northern points to
the Northern Pacific, who in turn
carry them to their destination. The
contracts taken are for the best firms
in Minneapolis and Stillwater.

It is estimated that over a million
feet of logs pass through the city in
this manner each day. There are
four trains a day with forty-five cars
to the train and there are 6,000 feet
of logs to each car, which would
make 270,000 feet of logs to a train.

The logs are being hauled for
the Shevlin-Carpenter Co. and the
Backus-Brooks Co., of Minneapolis,
and the Atwood Lumber Co., of
Stillwater.

Express Co.

A motion for a new trial was argu-
ed this morning in the case of Gra-
ham Bros. vs. the Northern Pacific
Express Co., which was tried at the
recent term of the district court. The
suit is in reality brought against
the state game and fish commission,
at whose instance a consignment of
fish belonging to Graham Bros. was
seized at St. Paul.

The jury on the trial gave the
plaintiffs a verdict for \$200. The
arguments on a motion for a new
trial were made this morning and the
court took the matter under advise-
ment.

MUSIC AND DRAMA.

GORTON'S MINSTRELS.

There will probably be a crowd at
the Brainerd opera house Aug. 7th.
Gorton's Minstrels, the favorites,
are coming in a brand new, up-to-date
program of minstrelsy. The perfor-
mance is unique in several particu-
lars, inasmuch as the overdoing of
burnt cork and the working over of
tired, bewhiskered jokes are conspi-
cuously absent. To counter-balance
for this welcome omission, the com-
pany introduces a splendid Gold Sex-
tette and a Quintette that cannot be
heard too often to suit the most ex-
acting audience. The dancing special-
ists and musical artists are excep-
tionally clever and of a high grade,
and done with a dash and spirit that
is really delightful.

An evening of minstrelsy so unlike
all others, is an evening that no lover
of music and song should miss.

Look for the great band concert at
noon. Finest of any in America.

GOOD ROADS QUESTION.

Prominent Business Men from Over the
State Attended a Meeting at the State
Fair Grounds Yesterday.

Prominent business men from all
over the state attended an enthu-
siastic good roads conference in the
state fair grounds at Hamlin yester-
day. There were forty or fifty repre-
sentative business and professional
men from Minneapolis, St. Paul and
the surrounding towns. Those pres-
ent represented the state, the United
States government, Twin City com-
mercial bodies, county boards and
good roads workers.

The object of the conference was
to make arrangements for a good
roads convention in the state fair
grounds during fair week, September
2 to 7 inclusive.

Col. R. W. Richardson, special
agent of the government good roads
bureau, made a speech upon his
favorite theme. He told of the im-
portance of good roads to every com-
munity from the standpoint of busi-
ness as well as pleasure. At the
same time he enlightened his hearers
as to how this great boon was to be
secured. Something of the objects
and plans of the government in the
good roads work were also gone over.
Col. Richardson sees a bright future
for the movement and expects much
good to come of the convention and
demonstrations which are to take
place in the fair grounds during fair
week.

J. W. Abbott, also a government
special agent, gave the gentlemen
present some good advice as to the
best manner in securing good roads.
He told them how to play their part.

The conference then took up its
routine business and appointed exe-
cutive, finance and reception com-
mittees to arrange the details of the
convention and good roads demon-
stration.

It is intended that good roads
workers from all over Minnesota, and
from other states will meet during
fair week in the fair grounds and ex-
change ideas. The convention, it is
expected, will last throughout the
fair. An important feature will be
the accompanying demonstration of
good roads.

DEEPEN THE MISSISSIPPI.

Project Minnesota will ask Trans-Missis-
sippi Congress to Indorse at St.
Paul Meeting.

Plans for the entertainment of the
Trans-Mississippi Commercial congress
at St. Paul are rapidly taking shape.
Two sessions a day will be held in
the auditorium, afternoon and even-
ing. The reception for the visiting
delegates will be given at the Com-
mercial club in the evening of Aug.
20. Thursday, Aug. 21, two river
excursions will be given, a drive
about St. Paul and to Minnehaha
and a trolley ride to Fort Snelling.

Louisiana is making special efforts
for a large delegation in order to
secure the next congress for New
Orleans. If the Crescent City does
not get the meeting it will probably
go to Seattle although Fort Smith,
Los Angeles and Sacramento are
strong candidates.

An effort will be made by the Min-
nesota candidates to have the ques-
tion of the deepening of the Missis-
sippi channel to St. Louis taken up.
Whatever the congress recommends
is generally carried out and it is be-
lieved that if it takes favorable ac-
tion old-time traffic on the river may
be resumed.

Special Notice.

Don't neglect your fur work or the
ordering of new garments. If you
could be made to realize how much
the gainer you would be by ordering
your furs now you would come quick
enough. You gain in quality, price
and workmanship and avoid annoy-
ing delays which always occur to
the lady who waits till fall, as in the
season every shop and fur factory is
overcrowded and behind with work.
Mr. I. Kraywetz manager of the N.

Lamb, Krimmer, Martin, Mink,
Electric Seal, Astrakans, etc. Mr.
Kraywetz carries also with him a
fur album showing the latest styles
and fur creations for the coming
winter of 1902-3, also fur fashion
plates from Paris, London and New
York. Hours at City Hotel, ladies
parlor from 8 to 10 a. m., from 1 to
2:30 p. m. from 7 to 9 p. m. Will
call at your residence if you desire to
give you an estimate what it will
cost you to remodel your fur coat,

Cancer and Consumption Cured In Duluth.

These diseases cured by the Actinic or Violet Ray Light cure
that has been used with great success in Europe and New York
City. In the latter place hundreds are being treated daily by
this wonderful light. Absolute cures are being effected and all
who try it are benefited. The treatment consists in powerful
rays of light from a 500 candle power lamp which are passed
through condensing lenses and thrown on the affected parts.
These rays of light destroy the germs of disease without injury
to the healthy tissue. It quickly relieves the pains of cancer,
the severe coughing in consumption and heals all running sores.
It is absolutely painless. Already a number of Duluth and

FIRST MASS MEETING

PRESIDENT MITCHELL SPEAKS
TO SEVEN THOUSAND STRIK-
ERS AT SCRANTON.

OTHER LEADERS ALSO TALK

Mine Workers Stand With Bared
Heads Under a Burning Sun and
Enthusiastically Applaud President
Mitchell's Utterances—Every Hand
Raised on a Question as to Who
Favored a Fight to a Finish.

Scranton, Pa., Aug. 2.—The first of
the strikers' mass meetings planned to
take place at the various strike cen-
ters, was held during the day in the
round woods. There were 7,000 strik-
ers present from all parts of the city
and the adjoining towns, some locals
having marched four miles to the
meeting, headed by a band or drum
corps and carrying flags and banners.
National President John Mitchell,
District President T. D. Nicholls, Dis-
trict Vice President Adam R. Rys-
cavage, District Secretary J. T. Demp-
sey, Organizer Martin I. Memolo and
Sub-District President D. T. Phillips,
delivered addresses.

Vice President Ryscavage spoke in
Polish and Organizer Memolo in Ital-
ian. The crowd enthusiastically
cheered all the speakers and fairly
went wild over Mitchell. When he
was introduced to speak, some one
shouted, "hats off," and, although the
sun's rays beamed down so intensely
that many were carried from the
crowd exhausted, every man in the
vast assemblage bared his head and
remained uncovered until his speech
was concluded. Then the crowd surged
about the platform and shook his
hands until he himself was almost ex-
hausted. Mr. Mitchell's speech was
brief and dealt only with the live is-
sues of the fight.

Before the handshaking episode had
begun, Chairman Phillips asked all
who favored a fight to a finish to raise
their hands. Every hand went up.

Twenty-five years ago, Aug. 1, 1877,
ten thousand striking miners, who had
been out for six months, met at this
same round woods, in almost the
identical spot where this meeting was
held, and with uplifted hands avowed
that they would not return to work
until their demands were granted.
That afternoon occurred the memora-
ble riot on Lackawanna avenue, when
a company of hastily formed
vigilantes killed two men, fired upon
a procession made up of strikers from
this and another mass meeting who
were bent upon burning breakers and
who had nearly killed Mayor McKune,
when he tried to halt them. A week
later the miners went back to work
without gaining any concessions and
with their union disrupted. As a pre-
caution against possible disorder, a
big squad of police was kept in re-
serve at headquarters and twenty
patrolmen were stationed in the neigh-
borhood of the Oxford colliery, which
has resumed operations and which
was almost within sight of the mass
meeting.

ABSOLUTE QUIET PREVAILS.

Troops, However, May Stay at Shen-
andoah Until Strike Ends.

Shenandoah, Pa., Aug. 1.—This was
an uneventful day in Shenandoah and
surrounding country. Absolute quiet
prevailed everywhere and the general
feeling of uneasiness which had pre-
vailed is rapidly disappearing. The
troops spent the day in perfecting
their camp arrangements and com-
paratively few of them were in town.
None are permitted out of camp after
dark. There was much sympathy ex-
pressed by the citizens generally over
the death of Joseph Beddall as a re-
sult of injuries received in the riot
of Wednesday night. He was well
known in the business community.
His funeral will take place on Mon-
day afternoon and he will be buried
with Masonic honors.

Brigadier General Gobin said that
while everything is quiet there is a
feeling of unrest among the great
army of idle men and boys. The gen-
eral would not talk about the length
of the stay of the troops but it is be-
lieved at brigade headquarters that
the soldiers will stay in the field for
some time or probably to the end of
the strike. Targets will be put
against the culm banks and it is
the hope of General Gobin to qual-
ify as marksmen at least two reg-
iments of the men now in camp. He
says he intends to make the most of
the opportunity to increase the ef-
ficiency of the men.

The mine workers' officials are still
at work obtaining signatures to the
petition to be sent to the governor
requesting him to withdraw the troops.
It is not exactly known how success-
ful they have been, as they are keep-
ing the matter secret. General Gobin
apparently takes no stock in the peti-
tion. He says it will help the sheriff
in finding deputies because all those
who sign such a paper should be the
first to offer themselves as deputy
sheriffs in case trouble arises after
the troops are withdrawn. The strike
leaders continue to express them-
selves as confident that the presence
of the troops will have no effect on
the strikers and that they will con-
tinue to remain out until victory
comes to them.

Woman Shoots Two Men.

Salinas, Cal., Aug. 2.—Warren John-
son and Joseph Bordes, prominent
young men of Salinas, were shot and
fatally wounded by a woman. The
woman then attempted to commit sui-
cide but was prevented and placed un-
der arrest. Johnson received two bul-
lets in the abdomen and Bordes was
shot in the back, the ball piercing the
right lung.

THREE LARGE FIRMS SIGN. DISASTER NARROWLY AVERTED.

Strike of Chicago Boilermakers Will
Be of Short Duration.

Chicago, Aug. 2.—Boilermakers and
shipbuilders and their helpers to the
number of 1,500 men employed in the
contract and job shops in this city,
struck during the day because the
Master Boilermakers' association re-
fused to concede demands made upon
them. The principal demand is an in-
crease in wages of the boilermakers
from 30 cents an hour to 40 cents for
inside work and 50 cents for outside
work. Helpers and heaters want an
increase from 20 cents to 25 cents for
inside work and from 25 cents to 30
cents for outside work. Other de-
mands are: Recognition of the union;
nine hour day inside and eight hour
day outside; double time for holiday
work and time and a half for overtime.
The boilermakers and helpers de-
clare they are determined to secure
the advance and are prepared to con-
tinue the strike indefinitely if neces-
sary. The Master Boilermakers' as-
sociation has offered to concede an
advance of 7 per cent but its officers
say it is impossible to grant the de-
mand of the union.

Important victories were won by
the men during the day, three of the
largest shops in the city having signed
the union scale and 200 of the men
will return to work.
The firms that agreed to the de-
mands were Allis-Chalmers company
Halley Down Draft company and
Hamler Boiler and Tank company.
Coming on the first day of the
strike the acquiescence of these three
firms to the union's demands is held
by the strikers as an indication that
the strike will be of short duration.

FOR ATTACKS ON NONUNION MEN

Grand Jury Indicts Eleven Union
Brass Molders at Chicago.

Chicago, Aug. 2.—Charged with pay-
ing rewards for assaults on nonunion
workmen, the scale varying accord-
ing to the degree of injury inflicted,
eleven union brass molders have been
indicted by the grand jury.

This is understood to be the first
action of the kind ever taken against
laboring men in the West.

All of the accused are members of
Brass Molders' Local union 83, some
of them having been officers of the
organization.

Witnesses told the grand jury that
the officers of the union, through the
business agent, offered from \$5 to \$25
for assaults on a nonunion man. If
the victim was permanently disabled
they said the man who did the work
received \$25, and in rare cases \$3 was
added.

Prices were graded, it was testified,
according to the time the man as-
saulted was unable to work.

Men who did this work for the
union, the grand jury was told, were
known as the "wrecking gang," if
they were engaged in minor assaults,
and as the "killing squad" if the
assault was of necessity committed
in an open place where it must be
done quickly for the men to get away.

Several months ago the brass mol-
ders of the Western Electric company
went on a strike and later the brass
molders of the Stromberg-Carlson
Telephone Manufacturing company
followed them. The trouble between
the union strikers and the men who
took their places brought on the in-
dictments.

IN EASTERN WASHINGTON.

Harry Tracy Is Heading for the Hole
in the Wall Country.

Spokane, Wash., Aug. 2.—Harry
Tracy, the fugitive desperado, is now
in Eastern Washington, evidently in
good health, armed with four guns
and 200 rounds of ammunition, pro-
visioned for five days and equipped
with two horses. Tracy crossed the
Columbia river at 5 o'clock Thursday
morning and is now supposed to be
headed toward the Idaho boundary.
Tracy declared that he wants to hold
up a bank or rob an express car. He
says that he had promised to give the
sum of \$5,000 within one year to the
parties who helped him escape from
the Oregon penitentiary. He is mak-
ing his way to the Hole in the Wall
country in Wyoming. When there
he declares he will be a thief among
thieves and thinks he will be safe.

MANY CHARGES AGAINST HIM.

Paymaster Charles W. Penrose to Be
Court-martialed.

Washington, Aug. 2.—An order was
issued by the navy department during
the day for the trial by court-martial
of Passed Assistant Paymaster Charles
W. Penrose, attached to the Michigan.
The officer is charged with rendering
false and fraudulent returns of bal-
ances to his credit, embezzlement,
scandalous conduct, absence from sta-
tion and duty and negligence in obey-
ing orders. The shortage in balance
is said to amount to about \$800. The
court will meet on the 7th instant at
Erie, Pa. Commander Perry Garst is
his president.

NEGRO TWICE HANGED.

Rope Breaks First Time and He Calm-
ly Waits the Second Drop.

Richmond, Va., Aug. 2.—At Wise
Court House, in the presence of a
thousand people, George Robinson,
colored, was hanged for the murder
of another negro.

On the first drop the rope broke.
Robinson was brought up the steps on
the outside of the scaffold to be hanged
the second time and had to wait
until the sheriff went to a store to
secure another rope. He was con-
scious throughout the whole of this
remarkable ordeal and did not show
the faintest sign of collapse.

AUDIENCE WITH THE KING.

Edward Will Receive Generals Botha,
Dewet and Delarey.

London, Aug. 2.—The Daily Mail
says it understands that Lord Kitch-
ener will come to London to meet the
Boer generals, Botha, Dewet and De-
laire (who sailed from Cape Town for
England July 30), and that immedi-
ately after their arrival here King
Edward will grant them an audience.
Lord Kitchener will be present at this
audience, as will probably Lord
Roberts, commander-in-chief of the
forces.

Geese That Lay Golden Eggs.

Once upon a time there was a pro-
moter who owned a common, everyday
goose who laid the usual, ordinary
goose eggs. He conceived the scheme
of syndicating the goose on a gold egg
basis and proceeded to do so.

He informed the trusting public that
soon his goose would lay an egg of
gold each day and offered for sale
stock in the Golden Goose Egg com-
pany, limited, at bedrock prices. There
was a wild rush for the stock, and the
promoter suddenly found himself
wealthy.

He continued to sell the stock as
long as there were buyers, for he did
not want to kill the goose that laid
the egg. His goose continued the same
ordinary fowl as before.

Moral—There are featherless geese
that lay golden eggs.—New York Her-
ald.

CUMMINS READY TO FIGHT.

Iowa's Governor Will Investigate
Rock Island Incorporation.

Des Moines, Ia., Aug. 2.—Governor
Cummins announces that he will pro-
ceed to investigate the right of the
Chicago, Rock Island and Pacific rail-
way to incorporate under the laws of
the state of Iowa, and if he finds that
the law is being violated he will or-
der the attorney general to bring an
action to invalidate the incorporation

Grand Jury Indicts Eleven Union Brass Molders at Chicago.

Chicago, Aug. 2.—Charged with paying rewards for assaults on nonunion workmen, the scale varying according to the degree of injury inflicted, eleven union brass molders have been indicted by the grand jury.

This is understood to be the first action of the kind ever taken against laboring men in the West.

All of the accused are members of Brass Molders' Local union 83, some of them having been officers of the organization.

Witnesses told the grand jury that the officers of the union, through the business agent, offered from \$5 to \$25 for assaults on a nonunion man. If the victim was permanently disabled they said the man who did the work received \$25, and in rare cases \$3 was added.

Prices were graded, it was testified, according to the time the man assaulted was unable to work.

Men who did this work for the union, the grand jury was told, were known as the "wrecking gang," if they were engaged in minor assaults, and as the "killing squad" if the assault was of necessity committed in an open place where it must be done quickly for the men to get away.

Several months ago the brass molders of the Western Electric company went on a strike and later the brass molders of the Stromberg-Carlson Telephone Manufacturing company followed them. The trouble between the union strikers and the men who took their places brought on the indictments.

IN EASTERN WASHINGTON.

Harry Tracy Is Heading for the Hole in the Wall Country.

Spokane, Wash., Aug. 2.—Harry Tracy, the fugitive desperado, is now in Eastern Washington, evidently in good health, armed with four guns and 200 rounds of ammunition, provisioned for five days and equipped with two horses. Tracy crossed the Columbia river at 5 o'clock Thursday morning and is now supposed to be headed toward the Idaho boundary. Tracy declared that he wants to hold up a bank or rob an express car. He says that he had promised to give the sum of \$5,000 within one year to the parties who helped him escape from the Oregon penitentiary. He is making his way to the Hole in the Wall country in Wyoming. When there he declares he will be a thief among thieves and thinks he will be safe.

MANY CHARGES AGAINST HIM.

Paymaster Charles W. Penrose to Be Courtmartialled.

Washington, Aug. 2.—An order was issued by the navy department during the day for the trial by courtmartial of Passed Assistant Paymaster Charles W. Penrose, attached to the Michigan. The officer is charged with receiving false and fraudulent returns of balances to his credit, embezzlement, scandalous conduct, absence from station and duty and negligence in obeying orders. The shortage in balance is said to amount to about \$800. The court will meet on the 7th instant at Erie, Pa. Commander Perry Garst is its president.

NEGRO TWICE HANGED.

Rope Breaks First Time and He Calmly Waits the Second Drop.

Richmond, Va., Aug. 2.—At Wise Court House, in the presence of a thousand people, George Robinson, colored, was hanged for the murder of another negro.

On the first drop the rope broke. Robinson was brought up the steps on the outside of the scaffold to be hanged the second time and had to wait until the sheriff went to a store to secure another rope. He was conscious throughout the whole of this remarkable ordeal and did not show the faintest sign of collapse.

AUDIENCE WITH THE KING.

Edward Will Receive Generals Botha, Dewet and Delarey.

London, Aug. 2.—The Daily Mail says it understands that Lord Kitchener will come to London to meet the Boer generals, Botha, Dewet and Delarey (who sailed from Cape Town for England July 30), and that immediately after their arrival here King Edward will grant them an audience. Lord Kitchener will be present at this audience, as will probably Lord Roberts, commander-in-chief of the forces.

DISASTER NARROWLY AVERTED.

Two Steamboats Collide in the Ohio River Off North Bend, Ind.

Louisville, Aug. 2.—The steamer City of Wheeling had a narrow escape from serious disaster in the Ohio river off North Bend, Ind., while bound from Cincinnati to Madison, Ind., with a cabin full of passengers. Part of her freight was washed overboard and her passengers were thrown into a panic for a few moments as the result of a peculiar collision with the steamer City of Cincinnati, en route from Cincinnati to Louisville.

The Wheeling, which is a small boat, was following directly in the wake of the City of Cincinnati and when a shallow place in the river opposite North Bend was reached, the latter boat suddenly slowed down and the Wheeling, continuing at full speed, became locked with her. A moment later the pilot of the City of Cincinnati called for a full head of steam and the larger craft shot forward rapidly, causing tremendous swells which rolled over the head of the smaller boat, deluging the main deck and washing over a quantity of freight. The water poured into the hatches of the City of Wheeling and her bow plunged down as if she was about to sink head foremost. As the boat rocked up and down the passengers became panic stricken, but were soon quieted, for the Wheeling steadied herself in a few moments and was successfully landed at North Bend. Most of the freight which was washed overboard was recovered.

BOTH OFFICIALS RESIGN.

Mayor and Chief of Police of Minneapolis Relinquish Office.

Minneapolis, Aug. 2.—Mayor Ames has declared from his place of sojourn at West Baden, Ind., that he will tender his resignation as mayor of Minneapolis to take effect Sept. 6. Coupled with the mayor's announcement of his intention to relinquish the mayoralty on Sept. 6 came a demand from the city executive for the resignation forthwith of his brother, Police Superintendent Ames.

Colonel Fred W. Ames, acting upon request of his brother, Mayor Ames, appeared before Acting Mayor Fred M. Powers, who was holding forth in City Attorney Healy's office, and presented his voluntary resignation as superintendent of police of the city of Minneapolis, to take effect immediately.

Appropriate.

The professor of painting has just entered the classroom, where smoking is strictly prohibited. Here he finds an art student holding in his hand a newly filled cherry wood pipe.

Professor (ironically)—What a queer paint brush you have got there! What are you going to do with it?

Student—Oh, I'm going to make clouds with it!

Geese That Lay Golden Eggs.

Once upon a time there was a promoter who owned a common, everyday goose who laid the usual, ordinary goose eggs. He conceived the scheme of syndicating the goose on a gold egg basis and proceeded to do so.

He informed the trusting public that soon his goose would lay an egg of gold each day and offered for sale stock in the Golden Goose Egg company, limited, at bedrock prices. There was a wild rush for the stock, and the promoter suddenly found himself wealthy.

He continued to sell the stock as long as there were buyers, for he did not want to kill the goose that laid the egg. His goose continued the same ordinary fowl as before.

Moral—There are featherless geese that lay golden eggs.—New York Herald.

CUMMINS READY TO FIGHT.

Iowa's Governor Will Investigate Rock Island Incorporation.

Des Moines, Ia., Aug. 2.—Governor Cummins announces that he will proceed to investigate the right of the Chicago, Rock Island and Pacific railway to incorporate under the laws of the state of Iowa, and if he finds that the law is being violated he will order the attorney general to bring an action to invalidate the incorporation papers filed Thursday.
